

ELECTROLINE

E-NID Outdoor Enclosure

Description

The E-NID is a weather resistant, UL certified fiber to the home enclosure.

The enclosure incorporates a dual snap lock to ensure closure to the base. There are three entry ports; one 3/4" and two 1" diameters. In addition the enclosure has two base knockouts for additional needs. The E-NID is a kit which includes a fiber management system, a ground block, and a fusion splice tray. An optional bulkhead connector can be purchased to allow the operator a means to test the incoming fiber easily.

Options:

The E-NID kit is available from Electroline in three forms.

- 1. E-NID:**
As described above
- 2. E-NID with Micro Node:**
Includes the E-NID and an Electroline RFoG micro node (ED2-B or ED3-B) wired with optional bulkhead test connector.
- 3. E-NID with Micro Node and UPS:**
Includes the E-NID and an Electroline RFoG micro node (ED2-B or ED3-B) wired with optional bulkhead test connector plus an external 8 hours UPS system.
